

Product Designer

THE COMPANY:

Stryve is the next generation Applicant Tracking System for companies with 1 employee to 1,000. We are essential to the growing businesses who know that hiring the best people, is critical to their company's future success. Stryve is currently a pre-revenue company looking to launch a beta product in early 2021, with a full launch in summer 2021. We will raise £500,000 over the next quarter, with 2 further fundraises planned in 2021 and 2022.

We aspire to be the No.1 ATS globally for growing businesses.

THE ROLE:

We are looking for a talented Product Designer to create amazing user experiences. The ideal candidate should have an eye for clean and artful design, as well as brand design. They should also have superior user interface design skills.

The successful candidate will be able to translate high-level requirements into interaction flows and artifacts. They will be able to transform them into beautiful, intuitive, and functional designs.

Requirements:

- Solid experience in creating wireframes, storyboards, user flows, process flows and site maps to communicate interaction and design ideas
- Conceptualize original website design ideas that bring simplicity and user friendliness to complex roadblocks
- Present and defend designs and key deliverables to peers and executive level stakeholders
- Establish and promote design guidelines, best practices and standards
- Develop illustrations, logos and other designs using software or by hand based on provided design briefs
- Work with copywriters and creative director to produce final design
- Ensure final graphics and layouts are visually appealing and on-brand.
